SAN IGNACIO TOWN, Cayo District, Monday, December 14, 2009:

A Santa Elena youth was today sentenced to spend the next six years in jail after pleading guilty to possession of unlicensed firearm, ammunition and controlled drugs

It was shortly after the midnight hour on Sunday, December 13, 2009 when, acting upon information received, a team of five San Ignacio police officers visited a house on Eve Street in Santa Elena Town.

The policemen surrounded the house and saw when a black plastic bag was reportedly thrown out a window. Police searched that section of the

Alcoholism Is A Treatable Disease

While we appreciate that the use of crack/cocaine is a scourge in any community as addicts often engage in dishonest means to fund their addiction resulting in increasing crimes of dishonesty such as theft, burglaries and robberies, efforts to address this condition must therefore continue.

Notwithstanding however, in this community we are witnessing an increasing number of persons, obviously addicted to the alcoholic beverage known as extra strong rum.

While these persons' means to get the next pint of rum might not be as aggressive as the crack/cocaine addict, they are mainly known to be begging for a \$1 here and there to accumulate the funds for the next pint of rum, the abuse of this strong beverage however, continues to claim the lives of those addicted to it.

Just this week, another one of these known addicts was buried in San Ignacio following another just a few weeks ago.

While there are those who would jokingly ask which one of them will be next to go, we should not deviate from the fact that the abuse of this legal drug is claiming the lives of a son, a brother, a father, an uncle or cousin somewhere.

We are herewith calling the attention of officials from the National Drug Abuse Control Council and Alcoholics Anonymous to render a helping hand to these dependent souls who are desperately in need of their professional assistance as another life lost to this treatable disease is just another life too much.

PNP Condemns Artificial Border Statement And Calls For An Apology

BY: Wil Maheia

PUNTA GORDA TOWN, Toledo District, Tuesday, December 22, 2009:

The Peoples National Party (PNP) condemns the statements made by our Foreign Minister

while at the Organization of American States (OAS) in Washington DC last week.

We consider our Belizean Border a very sacred reality, a very special place and a line that delineates our independent

aspirations as a nation.

As was evidenced by our trip to the Border in September, we went there to make a point, to show Belizeans that our border exists and to remind Belizeans that we must take care of our borders. Hence, we were

appalled to learn via the press that our Minister had indicated to the OAS that our border was artificial.

We believe that our Foreign Minister spoke out of context and because he represents and speaks for all Belizeans we demand that he publicly apologizes for endangering our right to self determination.

In addition we are calling on Belizeans to be more vigilant and to demand that our government take more meaningful actions to address the illegal incursions on our borders. We do not buy the argument that we do not have the resources to man our border.

We are calling on the government to immediately initiate a process that seeks to identify an appropriate mechanism that ensures proper vigilance on our borders.

In addition to this we are also asking that the Minister of Defense deploy more soldiers along our border so that we can rest assured that every square centimeter of Belize remains in the hands of Belizeans.

We are very skeptical of the role the OAS is now playing because while they are acting as mediators, the illegal incursions by Guatemalans have continued unabated. Lastly, we are also calling on the socially conscious group, Citizens Organized for Liberty through Action (COLA) to take a stand and call for strong actions.

"The Water From A Broken Dam Will Not Come Rushing Down The Macal To The Caribbean Sea" says Major Defour

SAN IGNACIO TOWN, Cayo, Culture Center, Saturday, December 12, 2009:

In obvious compliance with the Order of the Supreme Court, the Belize Electric Company Limited (BECOL) today held a public education session as the final stage in the Dam Break Early Warning System.

At its peak, the attendance reached no more than a disappointing 20 persons

The panel of presenters included **Jevon Hulse** from the Department of the Environment, **David Reynolds** from BECOL, **Eludoro Lewis** from the Belize Water Services, **Rudolph Williams** from the Department of Hydrology, **Mirna Pinelo** from the Public Health Department, **Alhenry Westby** and **Major Sheldon Defour** from the National Emergency Management Organization, **Rowland Rivers** from the Public Utilities Commission (Water Sector) and **Dennis Gonguez**, from the Meteorology Department.

The session was described as the third and final phase in the Dam Break Early Warning System with the first phase being the setting up of the warning system, the second being the testing and the third the public education session on the system.

The team reported that they have held discussions in relevant schools, communities, resorts and were now moving into the Towns as they endeavor to educate the over 24 thousand residents in communities and distance from the Chalillo Dam as follows: Cristo Rey (30 miles), San Ignacio (32 miles), Santa Elena (32 miles), Bullet Tree (33 miles), Santa Familia (33 miles) and Calla Creek (34 miles).

The officials informed that while the dam is built to withstand an 8.0 earthquake, in the worse case scenario of a dam break, the water will take 2 ½ hours to travel the 32 miles to San Ignacio and Santa Elena. Therefore, to be on the safe side, evacuation from danger to safe zones should be effected within the hour.

The BECOL representatives went into details to explain the

physical construction of the dam as well as the automatic and manual activation of the warning system along with the sirens, the radio communication network and the power backup mechanism.

Those in attendance were advised that in the unlikely event of a dam break, the safe zone in Santa Elena is all that area on the right side of the highway when traveling towards Belmopan being Santa Cruz, La Loma Luz and Hillview areas.

In San Ignacio, residents along the Bullet Tree Road and other low lying areas and Independence Square should follow the evacuation route to Falcon Field.

All those residents in the downtown area of San Ignacio should proceed to the safe zone at the Victor Galvez Stadium.

In general all those persons gathered in the various safe zones should wait there for further instructions from NEMO.

The estimated time for anyone to be in safe areas should be in two to three hours.

Villagers along the Western Highway are advised to exercise caution and to monitor water levels along the Belize River.

Interestingly and contrary to public opinion, Major Defour informed that 2 studies conducted by Dr. Boles, an expert in the field, indicate, that in the event of a dam break, the water, all 24 million cubic yards from the Chalillo and 1.6 mil-

lion cubic yards from the Mollejon "will not come rushing down the Macal like a huge wave towards the Caribbean Sea" but rather it will take the form of a steady rise in water levels much like in flooding condition of the past and therefore residents down the river monitor the rise in water level and evacuate to higher grounds when necessary.

Let the true meaning of Christmas, PEACE, JOY and GODWILL toward all men shine in all of our hearts & homes this Christmas Season & beyond.

Mexico City Moves To Legalize Same Sex Marriage

MEXICO CITY, Tuesday, December 22, 2009:

Mexican legislature passes a bill giving gay couples the right to marry, adopt children and enjoy the same status as heterosexual couples.

The Catholic Church and conservatives speak out against it.

A gay rights supporter rallies for passage of the bill in front of the Mexico City legislature. Lawmakers approved the bill, 39-20, and even removed a provision that would have barred gay couples from adopting children.

In a move that may put Mexico City at odds with the rest of the country, the local legislature approved a far-reaching gay rights bill Monday, voting to allow people of the same sex to marry and to adopt children.

The leftist-dominated legislature of this massive city of about 20 million people turned aside opposition from the influential Roman Catholic Church and

ended lively debate to approve the measure by a 39-20 vote. Mayor Marcelo Ebrard is expected to sign the bill into law.

"Mexico City has put itself in the vanguard," said legislator Victor Hugo Romo. *"This is a historic day."*

Mexico City's initiative goes further than any other in Latin America by rewriting the law to redefine marriage as a *"free union between two people,"* not only between a man and a woman. It gives homosexual couples the same rights as heterosexual pairs, including the right to adopt, inherit, obtain joint housing loans and share insurance policies.

Several countries, most of them in Europe, and a handful of U.S. states have legalized same-sex marriage in recent years, and the issue is being hotly debated in parts of predominantly Roman Catholic Latin America. Uruguay was the first Latin American nation to recognize same-sex unions, as

SAGITTARIUS:

November 22 to December 21

You find yourself turning deeply spiritual and possibly following some rituals too. Demands at work will continue. AQUARIUS: January 21 to February 19

The next few days are a strange mix. You may, on one hand, be at sixes and sevens to muster up resources for meeting sudden monetary demands; you may have to ask for favours too. An Unusual Funeral Procession

A woman was walking down Burns Avenue in San Ignacio Town when she noticed a most unusual funeral procession heading towards the Santa Rita Cemetery.

A first vehicle carrying a coffin was followed by a second one, about 50 feet behind, also carrying a coffin.

Behind the second vehicle was a solitary woman walking a pit bull on a leash. Behind her, a short distance back, were about 200 women walking single file.

The woman was so curious that she respectfully approached the woman walking the dog and said, "I am so sorry for your loss, and I know now is a bad

time to disturb you, but I have never seen a funeral like this. Whose funeral is it?"

"My husband's," replied the lady leading the dog.

"What happened to him?" asked the curious woman.

The woman replied, "My dog attacked and killed him."

She inquired further, "Well, who is in the second coffin?"

The woman answered, "My mother-in-law. She was trying to help my husband when the dog turned on her."

A poignant and thoughtful moment of silence passed between the two women.

"Can I borrow your dog?"

"Get in line."

Ten Differences Between Two Vehicles

Here are ten features of the Government vehicle assigned to the Public Officer

1. It can take speed humps at twice the speed of private cars.

2. It needs cleaning less often than private cars.

3. The battery, radiator water, oil and tires never have to be

checked.

4. It can be driven up to 60 miles with the oil warning light flashing.

5. The suspension is reinforced to allow for the weekend loads of bricks, concrete slabs and other building material.

6. It accelerates at a

phenomenal rate.

7. It needs no security system and may be left anywhere, unlocked and with the keys in the ignition.

8. It is especially sand and waterproof for barbecues and fishing expeditions on remote

beaches.

9. It has a much shorter braking distance than the private car.

10. Unusual and alarming engine noises are easily eliminated by turning up the radio.

It was agreed that the OAS would deploy a technical team to the Belize Guatemala Adjacency Zone to undertake an evaluation of the implementation of the Confidence Building Measures, and to make recommendations on how to improve their effectiveness. The Secretary General of

the OAS underscored the commitment of the OAS to continue assisting and accompanying the parties in these important efforts.

The Belize delegation to the meeting was led by **Foreign Minister Elrington** and included **His Excellency Alfredo Martinez**, Ambassador of Belize in Guatemala and

Israel Admits Harvesting Palestinian Organs

Sumbitted by George Gonzalez
Published on Monday, December 21, 2009 by The Guardian/UK
by Ian Black

Israel has admitted that pathologists harvested organs from dead Palestinians, and others without the consent of their families - a practice that it said ended in the 1990s.

The admission, by the former head of the country's forensic institute, followed a furious row prompted by a Swedish newspaper reporting that Israel was killing Palestinians in order to use their organs - a charge that Israel denied and called "antisemitic".

The revelation, in a television documentary, is likely to generate anger in the Arab and Muslim world and reinforce sinister stereotypes of Israel and its attitude to Palestinians. Iran's state-run Press TV tonight reported the story, illustrated with photographs of dead or badly injured Palestinians.

Ahmed Tibi, an Israeli Arab MP, said the report incriminated the Israeli army.

The story emerged in an interview with **Dr. Yehuda Hiss**, former head of the Abu Kabir forensic institute near Tel Aviv. The interview was conducted in 2000 by an American academic who released it because of the row between Israel and Sweden over a report in the Stockholm newspaper Aftonbladet.

Channel 2 TV reported that in the 1990s, specialists at Abu Kabir harvested skin, corneas, heart valves and bones from the bodies of Israeli soldiers, Israeli citizens, Palestinians and foreign workers, often without permission from relatives.

The Israeli military confirmed to the programme that the practice took place, but added: "This activity ended a decade ago and does not happen any longer."

Hiss said: "We started to harvest corneas ... whatever was done was highly informal. No permission was asked from the family."

However, there was no evidence that Israel had killed Palestinians to take their organs, as the Swedish paper reported. Aftonbladet quoted Palestinians as saying young men from the West Bank and Gaza Strip had

been seized by the Israeli forces and their bodies returned to their families with missing organs. The interview with Hiss was released by **Nancy Scheper-Hughes**, professor of anthropology at the University of California-Berkeley who had conducted a study of Abu Kabir.

She was quoted by the Associated Press as saying that while Palestinians were "by a long shot" not the only ones affected, she felt the interview must be made public, because "the symbolism, you know, of taking skin of the population considered to be the enemy, [is] something, just in terms of its symbolic weight, that has to be reconsidered."

Israel demanded that Sweden condemn the Aftonbladet article,

calling it an antisemitic "blood libel". Stockholm refused, saying that to do so would violate freedom of speech in the country. The foreign minister then cancelled a visit to Israel, just as Sweden was taking over the EU's rotating presidency.

Hiss was removed from his post in 2004, when some details

about organ harvesting were first reported, but he still works at the forensic institute.

Israel's health ministry said all harvesting was now done with permission. "The guidelines at that time were not clear," it said in a statement to Channel 2. "For the last 10 years, Abu Kabir has been working according to ethics and Jewish law."

The case against a Belize City salesman, accused of making off with over \$2200 in monies collected from his employer, concluded today in San Ignacio's Magistrate Court.

Miguel Mahitani, 26, proprietor of Delta Store in Belize City, reported that **Lionel Anthony Jones**, 26, Belizean salesman, of a Fresh Water Pond address in the Belize District, between the months of September and November 2009, collected over \$2,200 from clients in the San Ignacio/Santa Elena area and failed to pay in these collections.

Documentary evidence presented in court by Mahitani revealed that on the 3rd September 2009, Jones, who has been working for him as a salesman just a little over a year, collected the sum of \$380.49 from Chen's Supermarket in Santa Elena.

The evidence further revealed that on September 29, 2009 he collected an additional \$898.08 from Huang's Super Store in

San Ignacio; \$389.80 from Tam's Store on October 9th and \$560.08 from PK Store in San Ignacio on November 10 amounting to \$2,228.45 without paying these monies in to Delta Store.

Mexico City Moves To Legalize Same Sex Marriage

well as adoptions by gay couples, and some cities in Argentina have adopted similar laws.

Proponents praised the bill as helping remove the stigma and discriminatory practices that hurt gays, while opponents decried what they called an affront to the institution of family.

"This is wonderful," gay rights activist **Judith Vasquez** said from the noisy legislature floor, where proponents chanted, *"Yes, we could!"* and waved rainbow flags. Gay *"couples have effectively been together for years, decades, centuries,"* she said. *"But now it is our right."*

Jones was arrested in San Ignacio on Thursday, December 10, he was held over the weekend in police custody and was taken before Magistrate **Anna Rachel Montejo** on Monday 14th December where

he pleaded guilty to the charge. He was fined \$1,000 plus \$5 cost of court being less than 50% of the amount he was accused of embezzling.

While the \$1,000 is to be paid into government's coffers, it is now up to Mahitani and Delta Store to proceed by way of civil suit for the full recovery of their missing monies.

Mexico City, as a rule, is less conservative than much of the rest of the country, relatively open to sexual freedoms and expressions.

Most of the opposition in the city's legislature came from President Felipe Calderon's conservative National Action Party, which has threatened to take the city to court if Ebrard does not veto the measure.

Also opposed was the Roman Catholic Church, which labeled the proposal immoral, saying marriage must hold the promise of procreation. Cardinal Norberto Rivera Carrera said the law created the *"perverse possibility"* that *"innocent children"* would be adopted by gay couples.

"It is an aberration," said activist **Jorge Serrano Limon**. *"Marriage cannot be between men. That is absurd."*

Under Ebrard and his Democratic Revolution Party, or PRD, which controls the legislature, Mexico City has been at the forefront of social policy, often taking stances a far distance from other parts of the country.

The city, for example, legalized abortion in 2007, a decision that has since backfired and prompted states across Mexico to dig in their heels against abortion.

"They have given Mexicans a very bitter Christmas," Armando Martinez Gomez, president of the College of Catholic Attorneys, told The Times.

Armed with the identity of one of the suspects, a team of policemen rushed to Georgeville where they conducted a search inside a house on a nearby citrus farm.

The search led to the discovery of the knapsack along with the 7 books, the tools, personal documents and about \$14 in change. The recovered items were identified by the complainant to be his property.

These items were found alongside two dark masks, a green 16 gauge cartridge and a home-made chrome contraption bandaged with black electrical tape.
